Chennai, India | +91 63821 77949 | akaash.daniel.dev@gmail.com | linkedin.com/in/akaash-daniel | github.com/akaashdaniel

PROFILE

AI/ML practitioner and Computer Science graduate (Anna University, CGPA 7.4/10) with hands-on experience building NLP and computer vision systems, including a government-funded disease prediction platform and a 10-class CNN model. 1.5+ years of professional experience across government QA, cloud infrastructure, and full-stack development. Focused on building reliable, production-grade AI systems and pursuing opportunities in AI engineering and full-stack development.

TECHNICAL SKILLS

AI / ML: PyTorch, TensorFlow, Scikit-learn, HuggingFace, LangChain, OpenAI API, OpenCV, Pandas, NumPy

Languages: Python (primary), JavaScript, Java, C, HTML, CSS

Web & Cloud: React, Node.js, Flask, Django, AWS, Git, CI/CD Pipelines, Postman

Databases: MySQL, PostgreSQL, MongoDB

Testing & QA: Functional, Regression, UAT, Mobile App Testing, Hardware Testing — STQC certified

WORK EXPERIENCE

QA Engineer (Apprenticeship) · Electronics Test & Development Centre (ETDC) — Govt. of India

Mar 2026 – Present

- Validated data integrity and functional compliance for 3 government web portals (Jal Shakti, CRPF, NaRMIS) and 2 mobile apps
- Executed regression and UAT test cycles for Android & iOS apps using STQC certification standards
- Produced structured bug reports, test summaries, and compliance documentation aligned to Govt. of India QA protocols

Web Developer (Management Trainee) · Grace Food Courts Pvt. Ltd.

Jan 2026 – Feb 2026

- Designed and shipped a responsive e-commerce platform with product listings, cart, and clean UI using HTML, CSS, and JavaScript

Cloud Developer (Trainee) · Apdeops Technologies Pvt. Ltd.

Aug 2025 – Nov 2025

- Deployed and maintained AWS cloud solutions with infrastructure monitoring and cost control
- Configured CI/CD pipelines that reduced deployment time and release-related downtime

PROJECTS

DiseaseGPT — Python, Flask, React, LangChain, OpenAI API · TNSCST-funded

- Selected and funded by the Tamil Nadu State Council for Science & Technology under IPD-128 — ₹60,000 research grant (Oct 2025)
- Built RAG-based medical QA using LangChain + OpenAI API, mapping 80+ symptoms to potential diagnoses with real-time response; deployed live for public testing
- Achieved sub-2s response latency; Flask backend handles concurrent users via RESTful API architecture

Tamil Nadu Health Insight Dashboard — Python, Pandas, Plotly, Scikit-learn, Streamlit

- Interactive public health analytics dashboard visualising district-level health indicators and disease trends across Tamil Nadu
- Applied K-Means clustering on medical datasets; surfaced 4 distinct risk clusters across 38 districts

Bias Audit Tool for Medical AI — Python, Scikit-learn, Fairlearn, Matplotlib

- Evaluated fairness of Scikit-learn ML models across demographic groups (age, gender) using the Fairlearn library
- Quantified disparate impact metrics and visualised bias; proposed mitigation strategies using Responsible AI methodologies

EDUCATION

B.E. — Computer Science & Engineering · CGPA: 7.4 / 10

KCG College of Technology, Chennai (Affiliated: Anna University) — Jun 2025

Key coursework: Machine Learning · Data Structures & Algorithms · OOP · Computer Networks · Data Science

Senior Secondary (XII) — Science

NSS Matriculation School, Chennai — Apr 2021

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera (2025)
- The Complete Full-Stack Web Development Bootcamp — Udemy (2024)
- Data Science Math Skills — Duke University, Coursera (2024)
